

NON NEGOTIABLE REQUIREMENTS

Devin must follow every item below.

Architecture

MUST use:

- React
- TypeScript
- Firebase Auth
- Firestore
- TailwindCSS

MUST NOT use:

- Node Backend
- Express
- MongoDB
- Supabase
- Paid services

Habit Types

Supported:

1. Daily
2. X times per week

No other frequencies.

Weekly Streak Logic

Weekly streak equals:

Consecutive successful weeks.

Successful week:

`completed_count >= target_count`

Example:

Target = 3

Completed = 3

Success

Completed = 2

Failure

Warm-Up Week

If weekly habit created mid-week:

Week becomes warm-up week.

Warm-up week:

- Does not increase streak
- Does not break streak

Tracking begins next Monday.

Frequency Changes

Changing:

- frequencyType
- targetCount

Must:

Reset current streak

Must NOT:

Reset longest streak

Calendar

Green:

All active habits complete

Yellow:

Partial completion

Red:

No completion

Mobile

Minimum touch target:

44px

Entire habit row clickable.

Export

CSV export required.
